Gain Actionable Insight

Predictive Analytics with Power BI enables you to pull in data from a variety of sources to get a complete view of your organization. Drill down to see the detail. Slice and dice to find trends and identify contributing factors. Users can access Power BI through an Internet, a desktop browser, a mobile app – or just receive periodic reports from the system.

Fast Time To Value

Because you already have Microsoft Dynamics in place, your predictive analytics project can start quickly, often yielding results in weeks. Because every project is unique, we recommend contacting us to discuss your situation and help you get the most value from your systems.

About MCA Connect

For companies looking to gain competitive advantage through technology, MCA Connect is a Global Systems Integrator and Microsoft Dynamics Partner that delivers and supports operational transformation. By combining product and industry expertise with our proven strategic alignment methods, only MCA Connect is able to consistently deliver innovative solutions that help clients realize their vision, as evidenced by our repeated recognition from Microsoft and the millions of dollars we've helped clients add to their bottom line.
